

2014 Fall Conference

Q21. Please give suggestions for future speakers, topics or sites.

Ashley Harris, Hospice requirements & care

Peabody; Orange Beach; Destin

Grand Hotel, Mobile Bay, Alabama

More pharmacology

What about a conference on topics like the business of medicine, endocrine issues, cardiology, etc.

Updates on the Affordable Care Act as it unfolds

none

Sports Medicine topics to include -Concussion evaluation, Chronic Pain Management, Dermatologic disorders (i.e. rash differentials)

The Pharm._D from S. Carolina who spoke at Destin. He is outstanding. More psychiatric topics like review of schizophrenia and subtypes.

I love any guideline updates!

treatment of psychiatric problems of all types but esp in the elderly

enjoy coast, speakers generally very good with few exceptions,

peabody was really very nice judgement clouded by party in room next door till 3 am every night with no help from hotel staff.

Geriatrics

Doing good

This one had all of my wish list!

Pain management, basic affordable wound treatment, depression

Infectious disease--antibiotic choices

Some sports medicine topics would be interesting

Dewitt Crawford

more practice cardiology, rheumatology and endocrinology

Q22. Please give suggestions for improving future meetings (e.g. concerning techniques, materials, procedures, activities).

none

The printed handouts were nearly unreadable in some of the slides. The internet access was really slow .

Have someone review presentation slides to make sure print is legibly sized.

?

Slide presentations that are easier to see and read

none

N/A

The way we are doing it know is good.

I have no suggestions

Stax museum very interesting yall did great job. MAFP Staff always does a tremendous job on the programs. AV media presentation very good

Excellent format

Everything good

The plated breakfast was not very healthy. In this day and age there should at least be a whole grain on the bread plate. The eggs were runny and the coffee was weak. I just feel we as the leaders of healthy lifestyles we need to walk the talk- otherwise we will all have heart attacks and strokes!

No complaints. For spouses, a mall nearby would have been nice.

move meetings one hour later? Sure is early after night on town!!!!!!

If at the Peabody again might want to consider timing the program so that families can make it down to the duck program without having to miss the CME. Also may consider a zoo trip for families.
