

2016 Spring

22. Please give suggestions for future speakers, topics or sites.

Continued education on practice transformation and alternative payment models

Ortho

Memphis; cruise; skin disorders

Clinical topics

Core topics--diabetes, hypertension, coronary artery disease, COPD, etc.

Natchez; Greenwood, Gulf Coast, New Orleans, Memphis for Spring/Fall Conferences.

Please, somewhere besides Destin for Scientific Assembly (New Orleans, Memphis, Gulf Coast)!

Lipid treatment

Heart disease

BP control and lifestyle changes

U/s eval of fractures Iowa chapter had students teach the regular docs- this went over well!

I am visiting specialist so don't presume to make suggestions.

More clinical topics

more about Diabetes

More DM, Cholesterol, HTN, skin, eyes.

cardiology

Strategies for successful public health/wellness education

since we have to get cme to meet state board req for licensure i would like to have lecture that pertain directly to that topic

23. Please give suggestions for improving future meetings (e.g. concerning techniques, materials, procedures, activities).

none

Overall meetings are very well done

More hours of CME, please!

none

Insist that lecturers submit notes a week before so that they can be reviewed and approved for CME. And they would have enough time to get note formatted for lecture notes

Noise was annoying from booth room next door.

There IS a way to adjust lighting and sound. Someone just needs to know how to do it. I think the Hilton staff could have been more helpful and more readily available. AND... The handouts are so important! And I will always need the paper copies.... I can't write notes on the computer copy.

don't change anything

Really would help power strips for plug in at the tables.

To get slide decks earlier
